

Eight products, one unified stack

All products share the same O(1) / STONE / TSP core, enabling a coherent story and strong cross-sell economics.

LexiSaaS Proxy L I V E

AI infrastructure SaaS — transparent proxy routing all AI traffic through automatic token compression and full traceability.

LexiDev Tools L I V E

The world's most complete desktop platform for LLM developers. 9 specialised engines: STONE compression, three-layer Prompt Guard, A/B testing, optimisation, anomaly detection and more.

TSP — Trust Standard Protocol L I V E (n p m)

Open protocol for AI response trust verification, available as @lexico/tsp. Every response gets a cryptographic trust envelope with confidence score and audit log. Think HTTPS for AI.

Lexi Desktop Command S H I P P E D

Complete Windows desktop application giving full LexiCo platform access with local file integration, offline caching, and integrated AI tools.

LexiAI Kurs B E T A

Complete AI training platform for businesses. Course materials, learning paths and assessments for knowledge workers, IT professionals and managers. Content in Norwegian and English.

LexiAgent L I V E

Commission-based sales channel. Agents register at lexico.no/agent today and get dashboard, customer overview and real-time commission tracking. Up to 45% commission.

Lexi Audit & Compliance D E V

EU AI Act compliance module. Cryptographic evidence chain for AI traffic. GDPR and SOC 2 ready.

Consulting L I V E

AI development, integrations and custom solutions for enterprises.

Products and services

All LexiCo products are built on our proprietary O(1) Proxy and STONE compression engine — technology that makes AI faster, cheaper and greener.
