

# Product Portfolio

Eight products, one unified stack

All products share the same O(1) / STONE / TSP core, enabling a coherent story and strong cross-sell economics.

## LexiSaaS Proxy

LIVE

AI infrastructure as a service — a transparent proxy routing all AI traffic through automatic token compression with full traceability.

## LexiDev Tools

LIVE

A complete desktop platform for LLM developers. Nine specialised engines: STONE compression, three-layer Prompt Guard, A/B testing, optimisation, anomaly detection and more.

## TSP — Trust Standard Protocol

LIVE (npm)

Open protocol for AI response trust verification, available as @lexico/tsp. Every response gets a cryptographic trust envelope with a confidence score and audit log. Think HTTPS for AI.

## Lexi Desktop Command (LDC)

SHIPPED

A complete Windows desktop application with full LexiCo platform access, local file integration, offline caching and integrated AI tools.

## LexiAI Kurs

BETA

A complete AI training platform for businesses. Course materials, learning paths and assessments for knowledge workers, IT professionals and managers. Content in Norwegian and English.

## LexiAgent

LIVE

A commission-based sales channel. Agents register at lexico.no/agent today and get a dashboard, customer overview and real-time commission tracking. Up to 20% commission of the invoiced amount.

## Lexi Audit & Compliance

IN DEVELOPMENT

EU AI Act compliance module. A cryptographic evidence chain for AI traffic. GDPR and SOC 2 ready.

## Consulting

LIVE

AI development, integrations and custom solutions for enterprises.
