L E A D E R S H I P

Hans Berge — CEO / Co-founder

35 years in Norwegian tech. Former Norwegian Director of Ravenholm Computing (Scandinavia's largest software distributor in the 1990s). Built GiBud.no to NOK 100M valuation. Led IT transformation of Sykehuset i Vestfold.

Julian Andersen Berge — CTO / Co-founder

Born 1996. 100% self-taught. Architect of O(1), STONE and TSP. Built LexiCo's entire technology stack alone. Reviewed by Simula Research Laboratory and NTNU.

T E C H N O L O G Y

- O(1) memory architecture — constant-time AI response regardless of input size
- STONE compression engine — up to 79% token reduction with semantic preservation
- TSP (Trust Standard Protocol) — cryptographic trust envelope for AI responses

G O V E R N A N C E

Dutch Stichting (under establishment) holds a golden share with veto rights against military use, mass surveillance, or any use that violates fundamental human rights. Permanent European control.

S T A T U S

LexiSaaS, LexiAgent, TSP and LDC are live in production. Seeking strategic partners for European and global expansion.
