

LexiCo AS

Infrastructure for Trustworthy AI

Company Factsheet

COMPANY

Legal name: LexiCo AS

Organization number: 937 155 344

Address: Trølltjørødveien 18, 3140 Nøtterøy, Norway

Founded: 2024

Website: lexico.no

Email: post@lexico.no

Phone: +47 400 65 490

LEADERSHIP

Hans Berge — CEO / Co-founder

35 years in Norwegian tech. Former Norwegian Director of Ravenholm Computing (Scandinavia's largest software distributor in the 1990s). Built GiBud.no to a NOK 100M valuation. Led the IT transformation of Sykehuset i Vestfold.

Julian Andersen Berge — CTO / Co-founder

Born 1996. 100% self-taught. Architect of O(1), STONE and TSP. Built LexiCo's entire technology stack alone. Reviewed by Simula Research Laboratory and NTNU.

TECHNOLOGY

- O(1) memory architecture — constant-time AI response regardless of input size
- STONE compression engine — up to 79% token reduction with semantic preservation
- TSP (Trust Standard Protocol) — cryptographic trust envelope for AI responses

GOVERNANCE

A Dutch Stichting (under establishment) holds a golden share with veto rights against military use, mass surveillance, or any use that violates fundamental human rights. Permanent European control.

STATUS

LexiSaaS, LexiAgent, TSP and LDC are live in production. We are seeking strategic partners for European and global expansion.
